MAINTENANCE

Non Emergency maintenance items can be submitted by logging in to your Resident Portal. All non-emergency requests will be completed between 10 am and 5 pm Monday through Friday

(Excluding holidays). Any resident-caused damage to the home will be charged to your account after the work is completed. **Note that service requests entered through the Resident Portal may not be received until the following morning.*

Emergency maintenance requests will be addressed at all hours. We realize that issues may arise after hours that require immediate maintenance attention and in our best efforts to serve our residents, our maintenance team will visit the cottage to address emergency concerns promptly. An emergency maintenance request is a maintenance concern that presents a danger to people or property and include: fire, leaking pipes, flooding, toilet issues in units that have only one bathroom, no heat or AC if temperature is below 50 or above 90, or there is no water/power to the unit.

Maintenance Tips:

- Keep a plunger on hand to take care of minor clogs. In order to keep the toilet from getting clogged, do not flush rags, paper towels, diapers, feminine products, etc. down the toilet.
- Know where the toilet's water shut-off valve is (look behind the toilet). If the toilet begins to overflow, turn the water supply off immediately. This can prevent possible damage to your home. Once the water supply has been shut off, contact your management team or submit a maintenance request for the service.
- A toilet that runs constantly wastes water. If your toilet is running non-stop, contact your maintenance team immediately.
- Never put kitchen grease, coffee grounds, vegetable skins, fruit pits, or other items down the sink. We suggest collecting these items in a container and throwing them away in the trash.
- Clean up spills (even water) on flooring and carpet immediately before they soak in or cause damages.
- After bathing: (1) wipe moisture off of shower walls, shower doors, the bathtub and bathroom floor; (2) leave the bathroom door open until all moisture on the mirrors and bathroom walls and tile surfaces has dissipated; (3) hang up your towels and bath mats so they dry completely and (4) leave any bathroom fan on for at least thirty minutes after completion of activity.
- Run the Washer/Dryer and Dishwasher only when it is full to save water.
- Clean the lint trap in the dryer after each use and ensure that the area around the washer/dryer are kept clean and free of debris.

EMERGENCY INFORMATION GUIDE

The purpose of this guide is to provide guidance on the community fire safety and evacuation plans. Always remember, call 911 if your personal safety or the safety of another is at risk!

The building is equipped with the following equipment:

- Portable Fire Extinguishers – located in the cabinet under the kitchen sink in each apartment.
- Smoke Alarms – located in the living room area, their function is to sound an alarm if smoke is present.
- Fire Sprinkler system – located in the ceiling, their function is to discharge water when a predetermined temperature has been exceeded. (Do not attach or hang anything from the sprinkler heads.)
- Fire Alarm Pull Stations - Manual Fire Alarm activation point that requires human intervention.

Fire/Emergency Reporting:

Please report any incidents to 911 & the office if you experience or witness: violence, criminal activity, vehicle accident, injury or other medical emergencies, electrical/mechanical concerns, fire, flooding or leaks, or pests/rodents. The office will ask you to fill out an incident report for our records. You may also be instructed to contact local law enforcement to submit an official report.

Evacuation & Accountability:

In the event of an emergency where evacuation is necessary, remain calm and quickly exit the building using the nearest stairs, if applicable, and the nearest exit. Once outside the building, gather away from the building to clear area at least 500 feet away from affected building. Always move upwind of the building but be sure to keep streets, fire lanes, hydrants, and walkways clear for emergency vehicles and personnel. Review community site plan for emergency exit routes for your unit and designated meeting locations once you have evacuated the building.

Persons with disabilities or needing special assistance in the event of an emergency should locate the nearest exit and move to a safer location, if applicable. If unable to exit because of disability, needing special assistance, or if you believe someone to be trapped in the building call 911.

Fire Evacuation Plan:

The facility has a fire alarm system that will notify occupants of a fire emergency. When the alarm sounds an audible sound accompanied by strobe lights will notify occupants of an alarm. The fire alarm is monitored by a 3rd party who will contact the fire department. If you hear an alarm don't rush out into the hallway. Feel the door, if it is hot, use another way out. If the door

is cool, check the hallway for fire and if no fire is present exit the building using the nearest stairs, if applicable, and the nearest exit. Never use elevators in the event of a fire, use the stairs. Stay low as smoke and heat rises.

If you can't escape from your apartment, stuff wet towels, sheets or clothes around the door and vents to keep smoke out. Call the fire department and tell them where you are. If no smoke is coming into the room you're in, open a window slightly both at the top and at the bottom. Stay low and wave a bright cloth, towel or sheet out the window to signal your location.

If you discover a fire, try to isolate the fire by closing doors as you exit the building, verbally notify those around you as you move towards exit, sound fire alarm by pulling the closest manual hand pull located next to each door, call 911, evacuate the building using the evacuation routes provided.

Medical Treatment:

If at any time you need medical treatment dial 911. If you need medical treatment while at the post evacuation designated meeting point, advise the nearest emergency personnel.

Weather-Related Emergencies:

Monitor radio and television broadcasts and be alert to changing weather conditions. Avoid unnecessary travel. To prepare for inclement weather, keep on-hand preparedness items that could include: first aid kit, battery operated radio, fully charged cell phone, flashlight, extra blankets, canned food, can opener and bottles of water.

Other Hazards:

Be alert for liquid or chemical spills within the community and notify the office to address issue immediately.

Do not interfere with any civil disturbance or demonstrations and notify local law enforcement.

No security system is fail-proof. Even the best system can't prevent crime. We disclaim any expressed or implied warranties of security. The best safety measures are the ones you perform as a matter of common sense and habit.
